

HOW TO CREATE A FORM

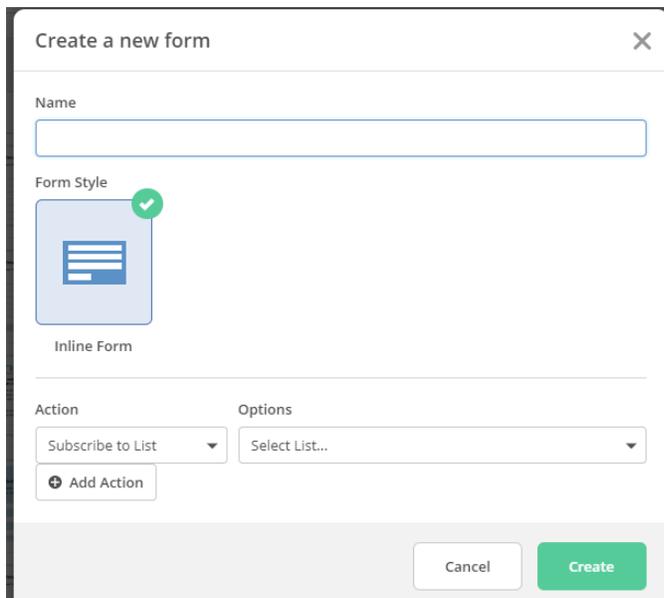

MatchDayMailCloud forms can be used as a way to help you grow your contact database.

To create a form:

1. **Go to the "Forms" section** in your account and **click "New Form."** In the top right hand corner

2. A "Create a new form" modal will appear. **Give your form a name**

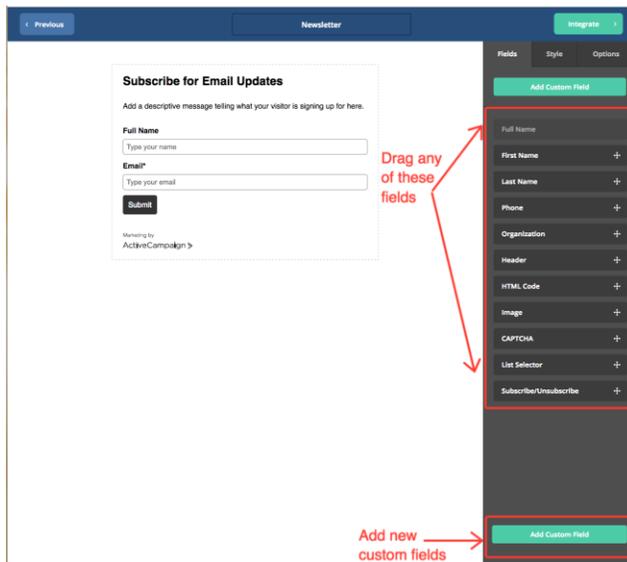

3. **Select an action and appropriate option.**

For example, if you choose “Subscribes to list” as your action, you will need to select a list to add contacts to.

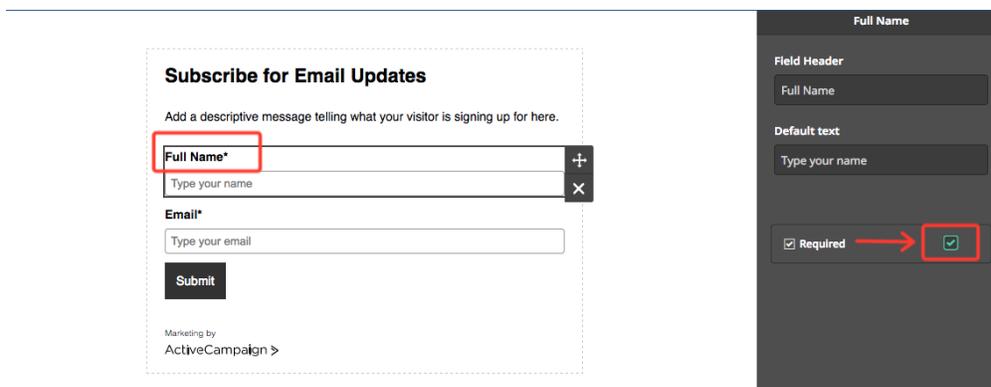

The actions you can choose from are Subscribes to List, Add a Tag and Email Results. **You can add as many actions as you like by clicking “Add Action.”**

4. **Click “Create.”** You will then be directed to the form builder.

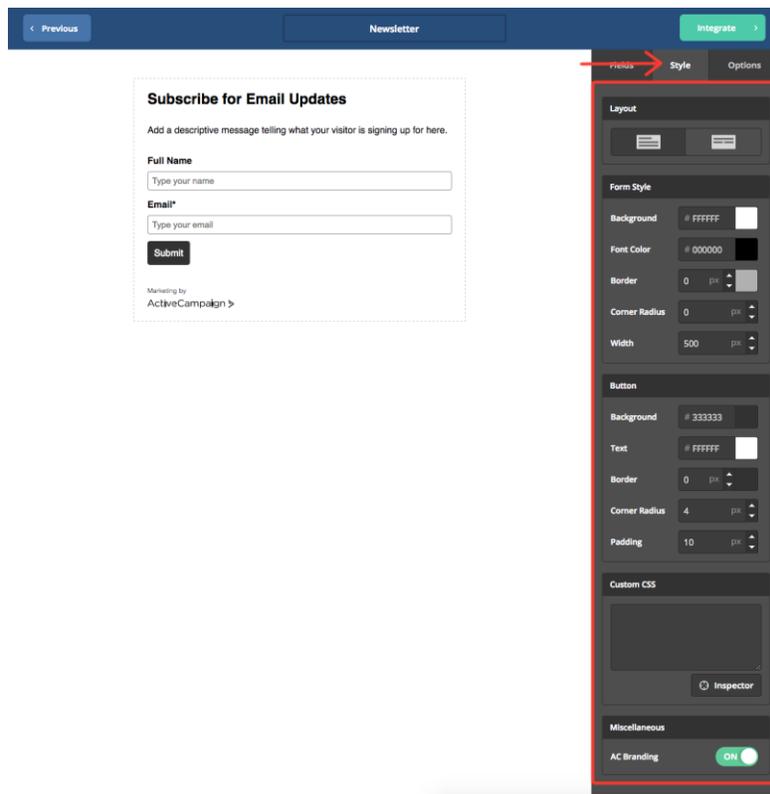

5. To make any field required, **click on that field** in your form.

Then **click the check box to the right of “Required.”** Once you click the required box, that checkbox will turn green and an asterisk (*) will appear next to that field.

6. The “Style” tab will allow you to adjust the look of your form. Here you can **change the layout, background and font color, button, add your own custom CSS**

7. The "Options" tab will allow you to **choose a submit action and edit/add form actions**.

The form actions you can choose from are Subscribe to List, Add a Tag, and/or Email Results. There is no limit to the number of form actions you can add to a form.

You can also modify your double opt-in email, confirmation action and enable single opt-in from this tab. Please note that if you are using a list subscribe form action then double opt-in is automatically enabled.

MatchDayMail Cloud interface showing a form configuration page. The main area displays a form titled "Subscribe for Email Updates" with fields for "Full Name" and "Email", and a "Submit" button. The right sidebar is open to the "Options" tab, which is highlighted with a red box. The "Options" tab contains sections for "On Submit" (with a "Show Thank You" dropdown and a text area containing "Thanks for signing up!"), "Form Action" (with a "Subscribe to List" dropdown set to "Newsletter" and an "Add Action" button), and "Advanced" (with a checked checkbox for "Allow blank fields to overwrite existing field data.").

8. **Choose whether or not to leave the "Advanced" box checked.** By leaving the "Advanced" option checked, you are allowing blank fields to overwrite existing field data.

Advanced

Allow blank fields to overwrite existing field data. ?

9. Once you are satisfied with your form, **click "Integrate."** The "Integrate" page will give you different options you can use to publish your form (by embedding the form code on a webpage, or providing your users with a link where they can access the form) and start collecting subscribers.

When finished, **click "Save and Exit."**

Integrate Your Form

Use the following options to integrate your custom form into your website

Embed Link WordPress Facebook

Simple Embed

```
<div class="_form_15"></div><script src="https://acdemosarah.activehosted.com/fr
```

Full Embed

```
<style>#_form_15 { font-size:14px; line-height:1.6; font-family:arial, helvetica, sans-serif; margin:0; }#_form_15_* { outline:0; }_form_hide { display:none; visibility:hidden; }_form_show { display:block; visibility:visible; }#_form_15__form-top { top:0; }#_form_15__form-bottom { bottom:0; }#_form_15__form-left { left:0; }#_form_15__form-right { right:0; }#_form_15_input[type="text"],#_form_15_input[type="date"],#_form_15_textarea { padding:6px; height:auto; border:#979797 1px solid; border-radius:4px; color:#000 !important; font-size:13px; -webkit-box-sizing:border-box; -moz-box-sizing:border-box; box-sizing:border-box; }
